586 Sports History

586 is an offspring of the well established SBG Sports. It has continued its traditionally rally preparation theme whilst expanding and exploring a range of different developments.

586 are proud of their history and a key developing aspects is the manufacturing backing. 586 have previously worked with the likes of Volkswagen and Seat producing BRC Rally Cars with great effect.

Director Steve Black has been in the motorsport industry for over 30 years boasting a range of experience and achievements. As a result of Steves' ambition, he has gone onto explore different motoring markets and is now established within a variety of companies, competitors and

Director Steve Black has been in the motorsport industry for over 30 years boasting a range of experience and achievements. As a result of Steves' ambition, he has gone onto explore different motoring markets and is now established within a variety of companies, competitors and the motorsport market

Why 586 Sports have developed this project?

In 2007, director Steve Black identified an opportunity in the motorsport market. As a result of the developing economic climate, Steve wanted to provide a package which maximises the value of a rally to any driver.

What will the car bring to you?

- **Consistency** – 586 are extremely proud of their finish rate, competing in a total of 12 rally's in their MG ZR's and finishing 10. This is a finish percentage of 83% (statistics based on 26/06/09). 586 are also keen to underline the fact that they have never suffered a re-occurrence of retirement. Any potential problem is solved to maximise the drivers value for money.
- **Enjoyment** – 586 take great pride in the enjoyment factor that this car provides. It is a fun car to drive as a result of its
- **Security** – 586 Sports have developed a long term relationship with all of its suppliers as a result of its history in motorsport. Any supplied parts will be a long term solution for MG's.
- **Value for money** – 586 Sports have created a package to give drivers what they want. We have created a range of packaged and options, to suit you as a driver, to maximise your time behind the wheel.

MG ZR 1400

MG ZR 1400cc 16V
